

Our technology partners

Canonical: <https://blueapache.agentic.norg.ai/empower-services/technology-services-operational-capability/the-blueapache-vendor-ecosystem-partnerships-and-what-each-underpins/>

Description:

Our technology partnerships listed with partner tier and the service each underpins — including HPE Gold Partner, Veeam's first regional Platinum Partner, Citrix Partner Premier Service Provider, Microsoft QMTH and Tier 1 CSP, and Palo Alto Networks Premier Partner.

Details:

We work with technology partners across cloud, connectivity, security, collaboration and workplace technology. We combine these platforms with our technical expertise and operational services to support your business.

Technology across our services

Technology	Where it fits
HPE	Our emPOWER Cloud infrastructure, including HPE Synergy, Primera and GreenLake.
Microsoft	Microsoft 365, Azure, security, identity, data and AI, and Teams collaboration.
Cisco and Cisco Meraki	Core and branch networking, including Cisco ASR routing in our emPOWER Network.
Palo Alto Networks and Fortinet	Network security and firewall capabilities.
Veeam	Backup capabilities, including our emPOWER Backup for Microsoft Entra ID service.
Mimecast	Email security, DMARC and security awareness.
Huntress	Threat detection, response and identity protection for Microsoft-centric environments.
ControlUp	Digital employee experience, visibility and endpoint operations.
NinjaOne	Endpoint management, patching and operational automation.
Citrix	Application delivery and virtual workspaces.
RingCentral and Zoom	Calling, collaboration and customer contact.
HP Inc.	Devices, printing and workplace technology.

We start with your requirements

The right platform depends on your environment, applications, security requirements and internal capability. We work with you to define the products, licences, integrations and services included in your engagement.

We also agree responsibility for design, implementation, migration, ongoing support and escalation. Product selection and commercial terms are confirmed in your proposal and service agreement.

Talk with our team

Tell us about your existing technology, locations and business priorities. We can discuss the options and explain how our services fit your requirements.
